

U) 11IS Processing Exploitation and Dissemination (PEI)

MISSION DATE: 23 JAN 10

SORTIE Number: SORTIE 4

OBJ NAME: HAITI RELIEF

MGRS: 18Q YF 85139 56009

COORDINATES: 183432.06N 0721754.30W

CALLSIGN: 13

TIME OVER TARGET: 1755Z-2030Z

EEI: Scan the HLZ's for obstructions, personnel presence, changes in migration patterns, identify new obstructions. Along the route scan identify threats and obstructions. Confirm if bridges are intact and identify if there are any large gatherings of personnel near the road along the route.

Overview: While on target the sensor observed a route scan from Port Au Prince Airfield to Leogane Drop Zone, HLZ's 1-17, and scanned the water IVO 18Q YF 62950 53072 for a reported AMCIT deceased in the water (unsuccessful search). The only observed changes were at HLZ 10, 8, 4, and 2. At HLZ 10, the large tents in soccer field 1 ("Spanish Hospital") were rearranged once again and the fenced in area expanded to the N end of the field. The personnel camped out in Soccer field 3 were no longer there (SLIDE 10). At HLZ 8, there was a definite increase (approximately 2000 total) in personnel compared to coverage on 22JAN10. The only open area was on the N side (SLIDE 13). At HLZ 4, a FOB was set up on the S side and a helo marker was on the NW corner of the HLZ (SLIDE 14). At HLZ 2, compared to imagery taken before the earthquake, the shoreline has moved S approximately 30m (SLIDE 18). At 2030Z, the sensor was off target and RTB.

UNCLASSIFIED NOT FOR COMMERCIAL PURPOSES

HLZ 17

HAITI RELIEF SORTIE 4
